

Enjoy regulated warmth in any room in your home with the Little Dynamo Electric Heater

quiet
efficient
affordable

IN THE WINTER

Save on costly fuel bills! Turn down your thermostat! Avoid the high cost of heating the entire house!

The Little Dynamo Electric Heater will provide instant heat *where you are—when you want it!* It is completely portable (weighs less than three pounds) and can safely be placed on a table, shelf, carpet or tiles.

The Little Dynamo has a 750W energy saving economy setting for maintaining uniform temperature. It has a powerful 1500W setting for instantaneous high heat and a full 6" fan for fast heat distribution.

IN THE SUMMER

When the temperature soars you'll stay cool anywhere with Little Dynamo's refreshing air circulation. Don't suffer from sweltering heat. Take the Little Dynamo Portable Fan with you everywhere; in the kitchen, in the den as you watch TV, in your workshop. Sleep in comfort—it fits compactly on your night table.

A SPECIAL DOUBLE SAFETY FEATURE... NEVER WORRY ABOUT OVERHEATING!

To protect you and your family, the Little Dynamo Heater is equipped with a fool proof double thermo switch. If anything covers the appliance, the first thermo switch automatically turns the heater off, automatically switches it on again when it has cooled. The second overheating thermo switch turns the heater off completely! *The Little Dynamo Heater is always on guard while giving you comforting warmth!*

The design is beautifully contemporary—and best of all, it costs only pennies per hour to operate!
